Items of note:

-attempts were made to extinguish a fire in a barrel at Wellington and Elgin westside. The crowd became angry and aggressive. The fire was put out and officers quickly disengaged. The fire was later found to be going again. Plans were made with POU to remove the barrel with the city in the morning

PLT

PLT reached an agreement with demonstrators at Rideau and Sussex and had a commitment from them to free up the intersection and move to Wellington near Elgin. The MIC indicated that there were still negotiations going on and that move would not proceed at this time.

It was reported that a school bus left Coventry full of Jerry cans and a BOLO was put out immediately. The vehicle was never located but a large number of cans was observed later at Metcalfe and Wellington before disappearing again.

Intel alerted Incident Commander to an Instagram post showing an internal OC Transpo email indicating that OPS had ordered 6 busses for officers as of 5 am Thursday morning. The planning team was notified.

■■■■ (injunction claimant) placed another call to OPS updating of more death threats she was receiving.

Approximately 6 vehicles including a bobtail and a tractor trailer combo left the red zone near Elgin shortly before midnight.

at 0036hrs, NCRCC was updated by Comms that they were receiving dozens of calls to the OE line (230-6211 not 911) effectively resulting in the lines being clogged and 911 calls not getting through. The callers were then linking our call takers together on the line indicating "you two should talk".

Operational planning and staffing continues for the coming days, coordinated through the SCC.
